

STR for SVBurger Web App

Project	Trivia web game
Document Version	3.0
Serial Number	03:C1:B9:48:A6:E8:2F:31:8E:87:5D:00:7D:22:A0:EE:DB:91
Date	October 18, 2023
Prepared By	Ehab Bolos
Approve By	Nathan Mashiah

Summary

The Software Test Report (STR) document is a record of the qualification testing performed on the SVBurger Web App, The document provides a summary of the testing results for the 1.0 version of the SVBurger Web App project.

Test Coverage

The following table shows the test cases (TC) coverage for the SVBurger project:

Suites	TC's Executed	TC's Passed	TC's Failed
Login Page	7	7	0
Registering Page	35	21	14
Menu Page	118	117	1
SVBurger Summary	184	179	5

Changing Password Page	9	7	2
SVBurger Weather Form	24	20	4

Test Results

The following table shows the results of the test cases that were executed:

TC	TC Type	Expected Result	Actual Result	Status
Sanity				
Running the main feature	Sanity	We can create new AVBurger account, to reserve & to send the order	We can create new AVBurger account, to reserve & to send the order	Passed
Suite 1: Login Page				
Click on "Forgot Password?" link	Func.	We can open the changing password page	We can open the changing password page	Passed
Login without email & password	EH	We can't login	We can't login	Passed
Login without email	Func.	We can't login	We can't login	Passed
Login without password	Func.	We can't login	We can't login	Passed
Enter email without "@"	Func.	We can't login	We can't login	Passed
Enter email with special characters	Func.	We can't login	We can't login	Passed
Enter wrong password	Func.	We can't login	We can't login	Passed

Suite 2: Registering Page				
Sign up with Hotmail mail	Func.	We can sign up	We can sign up	Passed
Sign up with Outlook mail	Func.	We can sign up	We can sign up	Passed
Sign up with walla mail	Func.	We can sign up	We can sign up	Passed
Sign up with 6 letters in the first name textbox	BV	We can sign up	We can sign up	Passed
Sign up with 10 letters in the first name textbox	BV	We can sign up	We can sign up	Passed
Sign up with 6 letters in the last name textbox	BV	We can sign up	We can sign up	Passed
Sign up with 10 letters in the last name textbox	BV	We can sign up	We can sign up	Passed
Sign up with 6 letter in the password textbox	BV	We can sign up	We can sign up	Passed
Sign up with 14 letters in the password textbox	BV	We can sign up	We can sign up	Passed
Sign up without filling the textboxes	EH	An error message pops up next to the first name textbox	The error message does not pop up next to the first name textbox	Failed
Sign up without filling the first name textbox	EH	The error message should show that the textbox is empty	The error message does not show that the textbox is empty	Failed
Sign up without	EH	The error message	The error message	Failed

filling the last name textbox		should show that the textbox is empty	does not show that the textbox is empty	
Sign up without filling the email textbox	EH	We can't sign up	We can't sign up	Passed
Sign up without filling the password textbox	EH	We can't sign up	We can't sign up	Passed
Sign up without filling the confirmation password textbox	EH	We can't sign up	We can't sign up	Passed
Sign up with 1 letter in the first name textbox	EH	The error message should show that the name should be between 6-10 characters	The error message shows that the name should be between 2-10 characters	Failed
Sign up with 11 letters in the first name textbox	EH	The error message should show that the name should be between 6-10 characters	The error message shows that the name should be between 2-10 characters	Failed
Sign up with non-English letters in the first name textbox	EH	We can't sign up	We can't sign up	Passed
Sign up with special characters in the first name textbox	EH	We can't sign up	We can't sign up	Passed
Sign up with numbers in the first name textbox	EH	We can't sign up	We can't sign up	Passed
Sign up with 1 letter in the last name textbox	EH	The error message should show that the name should be	The error message shows that the name should be between	Failed

		between 6-10 characters	2-10 characters	
Sign up with 11 letters first name textbox	EH	The error message should show that the name should be between 6-10 characters	The error message shows that the name should be between 2-10 characters	Failed
Sign up with non-English letters in the last name textbox	EH	We can't sign up	We can't sign up	Passed
Sign up with special characters in the last name textbox	EH	We can't sign up	We can't sign up	Passed
Sign up without "@" in the email textbox	EH	We can't sign up	We can't sign up	Passed
Sign up with special characters in the email textbox	EH	We can't sign up	We can sign up	Failed
Sign up with only numbers in the mail's domain in the email textbox	EH	We can't sign up	We can sign up	Failed
Sign up with a saved email	EH	We can't sign up	We can't sign up	Passed
Sign up with 1 letter in the password textbox	EH	We can't sign up	We can't sign up	Passed
Sign up with 15 letters in the password textbox	EH	We can't sign up	We can sign up	Failed
Sign up with special characters in the password textbox	EH	We can't sign up	We can sign up	Failed

Sign up with only numbers in the password textbox	EH	We can't sign up	We can sign up	Failed
Sign up with only letters in the password textbox	EH	We can't sign up	We can sign up	Failed
Sign up with non-English letters in the password textbox	EH	We can't sign up	We can sign up	Failed
Sign up with wrong confirmation password	EH	We can't sign up	We can't sign up	Passed

The failed TC

The following table shows the the failed TC's that were found during testing:

Bug	Bug Description	Severity	Priority	Status
An error message does not pop up!	If we try to create an account with an empty content, we don't get an alert message by order, the error message should appear next to the first name text box because this text box is the first one, but the error message appears next to the email text box.	Medium	Very Low	Fixed
A wrong text in the error modal alert	When we try to sign up without filling the first name text box, the error modal shows the text "First name must be in English letters only" instead of showing an error text next to the text box which shows that the text box is empty!	Medium	Low	Fixed
The first name can be between 2-10 letters	In the registering page, the first name should be between 6-10 letters but the app allows the first name to be between 2-10 letters and the error message that pops up also shows that the first name should be between 2-10 letters!	High	High	Fixed
The password text box has no maximum value	In the password text box we can enter how many chars we want, the maximum text box does not pop up, and the maximum value is not 14 chars!	High	High	Fixed
The password text box can be anything!	In the registering page, the password textbox accepts all types of strings!	High	High	Fixed
We can select more than 3 meal card	In the menu page the user can only select 3 meal cards as a maximum value, but the app allows selecting 4 cards.	High	High	Fixed

The valid coupon numbers do not show a "V" next to the "Coupon No." text box and the discount won't be calculated with the total price!	In the menu page the user can only select 3 meal cards as a maximum value, but the app allows selecting 4 cards!	High	High	Fixed
The table number has no maximum value	After reserving the meals, we can manually enter any table number we desire and the number picker for the "table No." will accept any value!	High	High	Fixed
We can enter any quantity we want	In the Product / Quantity number picker we can enter more than 2 meals, and we can also send the order with empty quantity!	High	Low	Fixed
The SVBurger weather form accepts any type of strings	In the SVBurger weather form we can't enter any type of a string we want and the text box won't be removed, & if we click on the "Search" button the app will be stuck in an endless loop till we enter a valid location!	High	High	Fixed
We can sign up with a non-valid email	In the registering page, we can enter any domain we want and the text box will accept the email that we enter!	High	High	Fixed

Defects

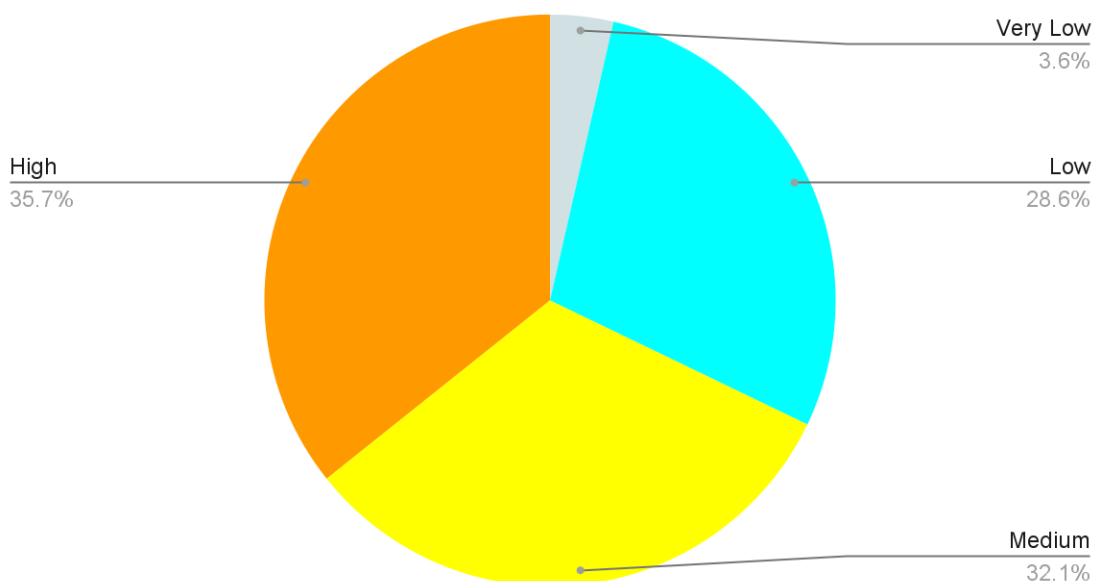

The following table shows the defects that were found during testing:

Defect	Defect Description	Severity	Priority	Status
A spelling error on the home page	The word "Lets" in the text "Lets start your way to our best burger" at the home page should be "Let's"	Low	Low	Fixed

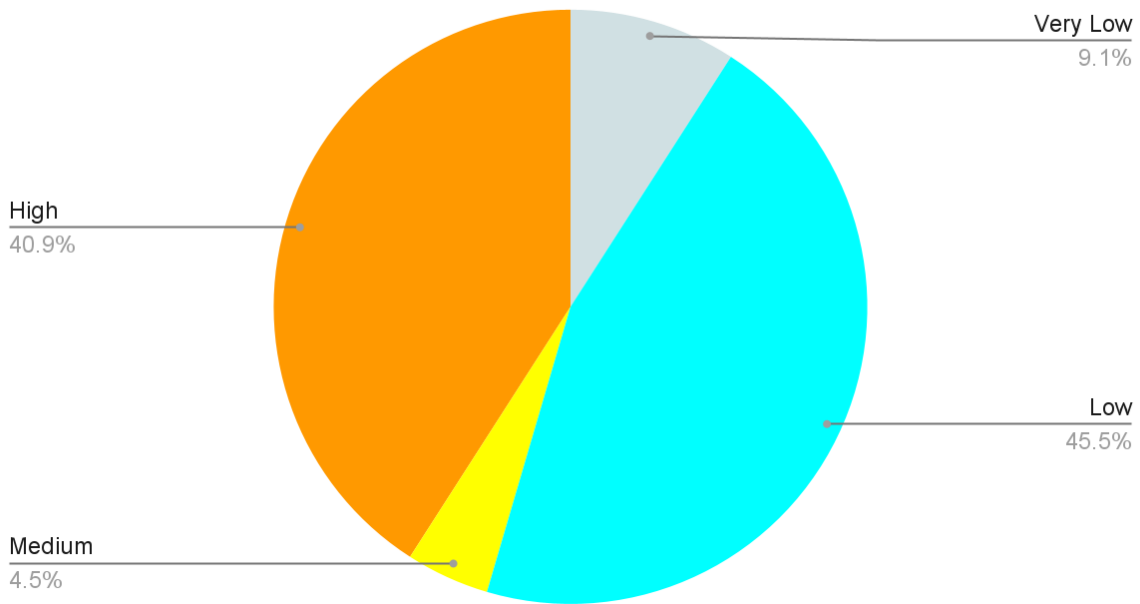

A spelling text in the "Sign in" button	The word "in" in the the button "Sign in" should be changed "In" to fit all the other button	Low	Low	Fixed
The price should have "\$" sign	In the menu, the meal cards do not have the "\$" sign next to the price.	Low	Low	Fixed
Spelling error in the SVBurger Summary	The "table No." should be "Table No." to fit all the other labels in the app.	Low	Low	Fixed
The price in the SVBurger Summary should have "\$" sign	The "table No." should be "Table No." to fit all the other labels in the app.	Very Low	Very Low	Fixed
We can reserve to table number 0	The table number can be 0 if we are reserving table number 1, because we have the default value 1 in the table No. number picker, we don't have to change it, so when we click send the table number that shows is 0 instead of 1.	Medium	Medium	Fixed
The sum of the total price does not include the service	When we place an order we don't need to pay for the service because the total price that opens will be only the meal price without calculating the service.	High	High	Fixed
Spelling error in the Registering page	<p>In the password and the confirmation password text boxes (in the registering page), the texts:</p> <ul style="list-style-type: none"> • "Create Password" should be "Create password" • "Confirm Password" should be "Confirm password" <p>to fit the other text boxes in the app.</p>	Low	Low	Fixed

Spelling error in the menu page	The text in the “Log out“ button should be “Log Out“, the word out should start with capital letter to fit all the other button in the app!	Low	Low	Fixed
Spelling error in the SVBurger weather form	In the label in the SVBurger weather form, the space between the word “Location“ & the “:” should be removed	Low	Low	Fixed
Spelling error in the changing password page	In the email text box in the changing password page, the text “Enter Your Email“ should be “Enter your email“ to fit all the other text boxes in the app!	Low	Low	Fixed

Severity

Priority

Conclusion

The 3.0 version of the SVBurger project has been thoroughly tested and is ready for release. However, it is important to note that the test coverage is not exhaustive and there may be some defects that were not found during testing.

Recommendations

The following recommendations are made for future releases:

- Some links, text need to be updated by changing the color to improve the user experience and to make them more comfortable for the eye.
- The website could be responsive for the users who prefer to browse from the phones.

Approval

Nathan Mashiah
