SUBUR-7	Bug
Link	
https://ehabolos98.atlassian.net/browse/SVBUR-7	
Summary	
The price in the SVBurger Summary should have "$" sign	
Severity	Priority
Very Low	Very Low
Description	

The "table No." should be "Table No." to fit all the other labels in the app.

Steps
- Open https://svburger1.co.il/#/   - Click on the "Sign In" button   - Enter the email "svburgerweb@gmail.com" in the "Enter your email" text box   - Enter the password "12345A" in "Enter your password" text box   - Click on "Sign in" button   - Select the "Combo Meal"   - Click on the "Reserve" button   **The price does not have "$" sign**

Expected Result	Actual Result
The price shows the coin type	The price does not shows the coin type

Notes
In the Subtotal & Service we can see the "$" sign which alerts the users that they need to pay in dollars, but it should be also shown next to the Price.

SUBUR-8	Bug
Link	
https://ehabolos98.atlassian.net/browse/SVBUR-8	
Summary	
We can reserve to table number 0	
Severity	Priority
Medium	Medium

Description
The table number can be 0 if we are reserving table number 1, because we have the default value 1 in the table No. number picker, we don't have to change it, so when we click send the table number that shows is 0 instead of 1.

Steps
- Open https://svburger1.co.il/#/   - Click on the "Sign In" button   - Enter the email "svburgerweb@gmail.com" in the "Enter your email" text box   - Enter the password "12345A" in "Enter your password" text box   - Click on "Sign in" button   - Select the "Combo Meal"   - Click on the "Reserve" button   - Click on the "Send" button   **The table number is 0 instead of 1**

Expected Result	Actual Result
Reserving for table number 1 shows the number 1	Reserving for table number 1 shows the number 0

Notes
Work Around - We can change the number from 1 to 1 and the table number in the order details will be also 1.

SUBUR-9	Bug
Link	
https://ehabolos98.atlassian.net/browse/SVBUR-9	
Summary	
The sum of the total price does not include the service	
Severity	Priority
High	High

Description

When we place an order we don't need to pay for the service because the total price that opens will be only the meal price without calculating the service.

Steps

- Open https://svburger1.co.il/#/
- Click on the "Sign In" button
- Enter the email "svburgerweb@gmail.com" in the "Enter your email" text box
- Enter the password "12345A" in "Enter your password" text box
- Click on "Sign in" button
- Select the "Combo Meal"
- Click on the "Reserve" button
- Click on the "Send" button
- **The total price does not contain the service amount!**

Expected Result	Actual Result
The total price is the sum of the subtotal price and the service price!	The total price is the subtotal price

Notes

- In the SVBurger summary the total price is the subtotal price + the service price but on the order details the total price is only the subtotal price!

SUBUR-11	Bug
Link	
https://ehabolos98.atlassian.net/browse/SVBUR-11	
Summary	
Spelling error in the Registering page	
Severity	Priority
Low	Low

Description	

In the password and the confirmation password text boxes (in the registering page), the texts:

- "Create Password" should be "Create password"
- "Confirm Password" should be "Confirm password"

to fit the other text boxes in the app.

Steps	

- Open https://svburger1.co.il/#/
- Click on the "Sign Up" button
- **The "Create Password" & the "Confirm Password" text boxes, the word "Password" should start with a small p.**

Expected Result	Actual Result
No spelling error in the registering page	A spelling error in the registering page, in the password and confirm text boxes

Notes
None

SUBUR-12	Bug

Link
https://ehabolos98.atlassian.net/browse/SVBUR-12
Summary
The first name can be between 2-10 letters

Severity	**Priority**
High	High

Description
In the registering page, the first name should be between 6-10 letters but the app allows the first name to be between 2-10 letters and the error message that pops up also shows that the first name should be between 2-10 letters!

Steps
- Open https://svburger1.co.il/#/SignUp   - Click on the "Sign Up" button   - Enter "a" in the first name text box   - Enter "aaaaaa" in the last name text box   - Enter "svburgerweb@gmail.com" in the email text box   - Enter "12345A" in the password text box   - Enter "12345A" in the confirmation password text box   - Click on the "Sign Up" button   **An error message pops up with the text "First name must be between 2 and 10 characters" & the first name can be between 2-10 letters!**

Expected Result	**Actual Result**
The first name should be between 6-10 letters	The first name is between 2-10 letters

Notes
- This issue also appears in the last name text box, the last name can be between 2-10 letters   - This bug can't be seen by the user because it should be an improvement that the first/last names can be from 2-10 letter because there is a names thats with only 2 letters, also the bug can't be seen because the alert message that pops up fits the error which allows to sign up with first/last names between 2-10 letters.

SUBUR-13	Bug
Link	
https://ehabolos98.atlassian.net/browse/SVBUR-13	
Summary	
An error message does not pop up!	
Severity	Priority
Medium	Very Low
Description	

If we try to create an account with an empty content, we don't get an alert message by order, the error message should appear next to the first name text box because this text box is the first one, but the error message appears next to the email text box.

Steps
- Open https://svburger1.co.il/#/SignUp   - Click on the "Sign Up" button   - Click on the "Sign Up" button   - An error message which shows that the text box is empty should appear next to the first name text box but it appears next to the email text box.

| Expected Result	Actual Result
An error message about empty text boxes should appear by order next to the empty text boxes	The error message appears next to the email text box instead of the first name text box

| Notes |
| --- |
| Work around - The users can still sign up only if they fill all the text boxes, it does not matter the order for the users because they should fill all the text boxes to sign up, but the code has an error. |

SUBUR-14	Bug
Link	
https://ehabolos98.atlassian.net/browse/SVBUR-14	
Summary	
A wrong text in the error modal alert	

Severity	Priority
Medium	Low

Description

When we try to sign up without filling the first name text box, the error modal shows the text "First name must be in English letters only" instead of showing an error text next to the text box which shows that the text box is empty!

Steps

- Open https://svburger1.co.il/#/SignUp
- Click on the "Sign Up" button
- Enter "aaaaaa" in the last name text box
- Enter "svburgerweb@gmail.com" in the email text box
- Enter "12345A" in the password text box
- Enter "12345A" in the confirmation password text box
- Click on the "Sign Up" button
- **The error message pops up in a modal instead of popping up next to the first name text box and the error text shows that the first name must be in english, not that the text box is empty.**

Expected Result	Actual Result
An error message next to the first name text box which shows that the text box is empty	An error modal pops up with a text which shows that the first name should be only in English
Notes	

- Work around - we can still register only with the valid content, the error modal will keep popping up until we fill the text box.
- This issue also occurs in the last name text box, if we do not enter data, the error message shows that the last name should be in English instead of showing an error message next to the text box which shows that that last name text box is empty!
